Trainee to read the Paragraph:

PTW System is an integral part of a safe system of work and can assist in the management of work activities, including non-routine work. PTW is an important element of an effective safety and health management system. It is a formal authorisation system used in an organisation to control selected work activities to ensure safe execution of work onsite.

This system allows Occupiers, PTW Authority and PTW Users to communicate hazards involved in the work activities to enable safe execution of onsite.

I will be fully responsible for all my actions and behaviours at all times during the training course.

Declaration:

I declare that I can able to read the above passage without any mistakes. Certificates submitted by me to GREENSAFE INTERNATIONAL are true. I shall not hold GREENSAFE, and its personnel and agents responsible or in any way liable in respect of any discrepancies found in my submission
